FINGERPRINT PRESENTATION ATTACK DETECTION

the Netherlands, 2021-04-16

VIRTUAL EVENTS ON FINGERPRINT PRESENTATION ATTACK DETECTION

Join the discussion.

The 3rd edition of EAB's virtual events series will be on "Fingerprint Presentation Attack Detection" and will take place on **April 29, 2021** and **April 30, 2021**.

The use of biometrics, and in particular fingerprints, is increasing day by day. Not only are we required to give our fingerprints in order to obtain a passport, but we can also use them on a daily basis for other tasks such as unlocking our smartphones or confirming a bank transaction or payment.

In spite of the numerous benefits of utilising fingerprints instead of PINs or passwords, some drawbacks come with this technology: one does not need to be a tech expert to carry out a presentation attack that may fool a system into believing you are someone else.

We thus need to raise awareness about this issue and about the current efforts of the biometric community, including academia, operators, and vendors, in order to minimise the impact of such attacks.

News Release

The European Association for Biometrics in collaboration with Hochschule Ansbach organises a workshop on "Fingerprint Presentation Attack Detection" which will feature presentations by experts from academic, industry, and governmental organisations, and will facilitate interactions and discussions between the experts and the audience.

The workshop is aimed at a wide range of stakeholders including industrial and governmental developers, end-users of biometric systems, researchers, academics and post-graduate students, and policy makers.

Read more about the workshop and register at: <https://eab.org/events/program/243>

Facts about the virtual events series

Dates	2021-04-29 14:00 - 17:00 CEST
	2021-04-30 14:00 - 17:00 CEST
Location	Online
	Registered participants will receive dial-in credentials in the morning of the event.
Workshop fee*	normal: 200,00 €
	EAB members: 100,00 €
	EAB Student members 0,00 €
	Speakers: 0,00 €
Session Chairs	Dinusha Frings
	Marta Gomez-Barrero

About EAB

The European Association for Biometrics (EAB) is the leading voice for digital ID & biometrics in Europe. We are a non-profit, non-partisan association.

The EAB's mission is to tackle the complex challenges facing ID in Europe, ranging from migration to privacy rights. Our role is to promote the responsible use and adoption of modern digital identity systems that enhance people's lives and drive economic growth.

Through a series of EAB initiatives we support all sections of the ID community across Europe, including governments, NGO's, industry, associations and special interest groups and academia. Our initiatives are designed to foster networking and debate, whether at an EAB hosted event across Europe, or in providing impartial advice & support to individual members.

We ultimately serve the citizens of Europe in the advancement of modern biometric identity systems that are fair, accessible, secure, while respecting privacy.
